OBJECTIVE

My objective is to attain an engaging position as an intern in front-end and back-end Web Development which is optimal for personal growth and discovery. This includes working in a team-oriented environment as surrounding myself with like-minded individuals is a high priority.

TECHNOLOGIES

Web Development

HTML/CSS
JavaScript
Vector graphics(SVG)
Python
Django
NodeJS
ReactJS
WebRTC

Worked on User Interfaces for all the projects mentioned in portfolio. Worked on chat services front to back. Interested to be a full stack developer. Currently interested in Machine Learning for the web using tensorflowJS and also in graphics for the web.

Coding

Algorithms
Data Structures
Python

Intermediate level algorithms and data structures.
